Respiratory Syncytial Virus (RSV) Season

August 1, 2009

Dear Absolute Total Care Clinician,

Enclosed please find the Absolute Total Care (ATC) Synagis® Authorization Guidelines for the 2009-2010 RSV season. These guidelines were developed based on recommendations of the American Academy of Pediatrics (AAP) and local South Carolina physicians.

The following modifications have been made to the AAP guidelines for infants born between 32 weeks, 0 days through 34 weeks, 6 days:

- Must be younger than 3 months of age at the start of the RSV season or born during the RSV season, and
- Must either attend child care or have a sibling younger than 5 years of age.
- Synagis should only be given until the infant reaches 3 months of age.

ATC will again use Caremark as its preferred provider of Synagis for the 2009-2010 RSV season. Beginning immediately, all requests for Synagis should be forwarded to Caremark for initial screening to determine if the request meets criteria for coverage. A copy of the Caremark RSV enrollment form is enclosed. When submitting the enrollment form, please attach the NICU discharge summary to expedite the review process.

Caremark will be responsible for the delivery of the injectable product and the overall coordination of the drug distribution process. All injectable products will be billed directly to ATC by Caremark and shipped to your office. Administration charges for the injection should be billed directly to ATC on a (HCFA) CMS 1500 claim form using CPT code 96372. You can also bill for an appropriate office visit for each administration of the drug.

Caremark specializes in specialty injectables and can provide the support and follow-up with ATC members to ensure compliance and positive clinical outcomes. Caremark offers:

- 24-hour access to the Caremark case management team
- Patient education and compliance monitoring programs
- Direct refill and renewal coordination
- Approved clinical protocols and treatment guidelines
- Synagis approval for the entire RSV season

For RSV enrollment, please call **1-800-237-2767**, or fax a completed Caremark RSV enrollment form prior authorization request form to **1-800-323-2445**. For additional questions, contact the ATC Provider Inquiry line at **1-866-433-6041**.

Thank you for your cooperation,

Lilly Randolph, M.D.
Medical Director
