

Model of Care (MOC) Training Quick Reference Guide

Overview

The Centers for Medicare & Medicaid Services (CMS) requires all contracted medical providers and staff who directly or indirectly provide Medicare Part C or D benefits for an Allwell from Absolute Total Care HMO SNP member, to receive basic training about the Special Needs Plans (SNPs) Model of Care (MOC). The SNPs MOC is the plan for delivering coordinated care and care management to special needs members. SNPs are responsible for conducting their own MOC training, which means you may be asked to complete multiple trainings by different health plans. CMS requires us to show evidence of the availability of MOC training materials communicated to providers.

What is MOC training?

According to CMS, “The MOC provides the basic framework under which the SNP will meet the needs of each of its enrollees. The MOC is a vital quality improvement tool and integral component for ensuring that the unique needs of each enrollee are identified by the SNP and addressed through the plan's care management practices.”

This training will identify how you, as a provider of care, will support the SNPs MOC while understanding CMS requirements for managing those members.

In order to ensure compliance with CMS regulatory requirements for MOC training, Allwell from Absolute Total Care requires completion of MOC training within 90 days of contracting and annually thereafter.
